Eclectic Magazine for 1859.

GREAT ARTISTIC ATTRACTION.

28 Beautiful Portraits in January Number!

To all Lovers of Choice Reading.

1. Your attention is respectfully invited to the character, contents, portrait embellishments, and sterling literary value of The Eclectic Magazine.

2. For fourteen years The Eclectic has found favor with the public and high commendation from the press. It is now in its forty fifth volume.

3. Its design is to present to its readers the choicest treasures of thought, and the ablest productions of European writers, as they appear in the Reviews and Periodicals of Great Britain.

4. Its combined excellencies and permanent value give it a just claim to a place in every well selected public and private library.

5. It contains the cream from seven Foreign Quarterlies.

6. It contains the cream from nine Foreign Monthlies.

7. It contains articles from the ablest pens of England.

8. Forty fine Steel Portraits embellish it in 1858.

9. The forty Portraits are worth the price of the work at 12½ cents each.

10. The subscriber gets double the worth of his money. Considering what it contains, The Eclectic is the cheapest, the safest, the best, the most desirable of all the monthlies. Try it. You will find it true. It saves time. It saves money.

11. No intelligent family—no young lady—no young gentleman, will wish to be without its rich treasures of knowledge, when once examined.

12. Its instructive educational influences on the mind are worth ten times its cost.

13. The public press, far and near, give The Eclectic strong commendations. Eminent men do the same.

"The merits of The Eclectic need only to be known in order to be appreciated. The Eclectic is worth many times its cost."—New York Observer.

We have received many pages of commendation. We add the CONTENTS OF JANUARY NO', selected from six Quarterlies and seven Monthlies.

REMOVAL.

United States and Foreign

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,
13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S Patent Office, Feb 22, 1856

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments eminently fit him for the business in which he is about to engage.

EATON'S ARITHMETIC.

BANGOR, Oct 30, 1858

At a meeting of the School Committee, held this evening, it was

ORDERED—That EATON'S ARITHMETIC be introduced into our Intermediate, Grammar and Select Schools, instead of Greenleaf's, now in use. Attest

(Signed) FRED'K E SHAW, Sec'y.

The decided satisfaction which this book gives in the school room, and its unprecedented success, prove that it is a work of rare merit.

All those who are dissatisfied with the books now in use, are requested to give this an examination.

They will find it the most clear, concise, logical and practical treatise on written Arithmetic extant, following as it does the plan of Colburn's First Lessons—the two make a complete and popular series.

Copies furnished for examination on receipt of postage—15 cents—on application to

CODMAN HOUSE, RE-OPENED!

This spacious and commodious House has been recently refitted and opened for the accommodation of the public, under the management of J. A. BACHELDER, whose observation and experience as a Hotel-keeper is unsurpassed. One of the best Cooks in the country will officiate in the kitchen.

The location of the House, and its appointments, cannot fail to render it one of the most pleasant and convenient stopping places in the country.

In connection with the House is a large Hall for the accommodation of parties. Also, a large and convenient Stable, with double and single stalls, as may be desired, and, having secured the services of one of the most experienced Hostlers, the public may be assured that their Horses will receive the best of care and attention. There is also a large stable fitted up with stancheons for cattle, separate or in droves.

Special pains will be taken to accommodate people emigrating to the Aroostook on the most reasonable terms.

MY MOTHER'S SALVE!

THIS CELEBRATED PREPARATION has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"MY MOTHER'S SALVE"

Is a PERFECT CHEMICAL COMPOUND, prepared from ROOTS, HERBS AND GUMS, gathered from the forest, and possesses Healing, Soothing and Pain Relieving Virtues never before combined in a Salve or Ointment.

"MY MOTHER'S SALVE"

Is SAFE AND EFFECTUAL and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a PERMANENT CURE

"MY MOTHER'S SALVE"

In a BURN or SCALD takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"MY MOTHER'S SALVE"

Is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth. Directions for using

"MY MOTHER'S SALVE"

are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with the Salve. In case of Cough, Tightness of the Lungs, Sore Throat and such like ails, rub as in case of Rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A M BECK

Whig and Courier.

The Impending War in Europe. The Providence Journal, usually cool in observation and cautious in expression on public events, takes the following sombre view of matters in Europe. We fear there is too much ground for its apprehensions. Says the Journal:

We are forced to believe that Europe is rapidly drifting into open war. The English journals have been bidding us look for the speedy reconciliation of the hostile parties. They have told us that the angry clouds which lowered over all southern Europe would soon be dispelled, and the sunshine of perfect peace would soon gladden all hearts. Every mail has brought us with its rumors of war the confident promise that the next steamer would bear us tidings of pacification. But no news have we seen, which appears so warlike as that which the America has just brought to our shores.

The scenes in France remind one of the days which preceded the Crimean war. Agents are scouring the country for cavalry horses, ... of the artillerymen are making cartridges, the surgeons are all ordered to hold themselves in readiness for immediate service, the naval forces are gathering in the Mediterranean, and the immense army seem to be concentrating a large part of its strength on the eastern frontier. The same activity is witnessed in Piedmont, and the Turin journals speak with enthusiasm of the alliance with France while the betrothal of the Princess ... Safely hid, he remained under the protection of the bushes for some time, and it may be imagined that his feelings toward the ... kind were not of the most friendly character; but ere long his seclusion was destined to be intruded upon. The family of the fair one seeing his horse still remaining in the pasture inquired of the lady what she had done with her lover. She was nonplussed. She only knew he had left about three o'clock in the morning. Things didn't look right, if he had gone, why did he leave his horse? Suspicions were awakened. By and by, the boy who had been out to feed the ... returned with the remnants of the identical white garment which adorned the lower limbs of their late visitor. They were mangled and torn to shreds. An inquest was immediately held over them. The neighbors were summoned to search for his corpse and the posse with all speed set out with dogs and arms to the search. The pasture was thoroughly scoured, and then the adjacent thickets, when, lo! our hero was driven from his lair by the keen scent of the dogs all safe, alive and well, but minus the

An English paper publishes the life of a prisoner, composed by himself in Winchester jail. The original is in the shape of a printed book; the letters and words having all been cut out of waste paper, by the man, with his finger nails, as no knife or scissors were allowed. After cutting out the words suitable to his purpose, he carefully pasted them in proper order to form a small book, comprising twenty-two pages. A piece of poetry addressed to the prisoner's wife, is included in this singular production.

The debts of the different nations and States are estimated in the European States at more than ninety nine hundred and eighty millions of dollars—$9,980 873 768. The most deeply indebted nations are: Great Britain, $3,870,563 740; France, $1,606,338 493; Austria, $1,209,420 000; Russia, $1,041 414,123; Spain, $732,205,648; Holland, $450 395,337; and Prussia, Portugal, Sardinia, Belgium and Denmark, severally owe more than one hundred millions. The Central and South American States owe $369,696,014, of which Mexico is set down for $133 526,262; Brazil, $73 277 250; Peru, $46 461 337; Venuzela $22 865,620, and the others various sums from one quarter of a million to fifteen millions of dollars.

Kansas Emigrant Incidents.—A dastardly attempt was made on Saturday, near midnight, by W D White, one of the *attaches* of the Journal office, to assassinate W. W. Bloss, the local editor of the paper. Mr Bloss was seated at his desk, with his back towards the door of the office, when White entered, and without a word of intimation of his design, instantly fired at the back of Mr Bloss, the ball striking his shoulder-blade in the region of the heart, and glancing off passed through his left arm. Mr Bloss sprang to his feet, but before he could turn to see his assailant, White had fired three shots, one taking effect as above stated, one passing through the right arm, and one passing through the left hand. Mr Bloss discovered the assailant in time to avoid the fourth shot, which was aimed directly at his head. As soon as he could reach his pistol, he returned the fire, but being weak and dizzy from the effect of his wounds, he failed to hit his antagonist. White then fired three more shots and hastily left the room. Physicians were immediately called in and the wounds of Mr Bloss were examined and found to be very serious.—*Leavenworth* (Kansas) *Times.*

The Revival of Dramatic Parties.—"Inspector," the Washington correspondent of the New York Courier & Enquirer has the following:

It is given out that a national Convention is to be held in Jane next at Annapolis or some other convenient place, to re-animate the Whig Party and set it upon its legs again.—There is something in this movement. There are several respectable old gentlemen in every State in the Union who pride themselves upon being old Whigs. They ought to have a national organization, they are entitled to their party. It is true that the Whig party died in 1852, that it was duly set upon by a Coroner's Jury, and that, though various opinions were given of the cause of its death, there was no dispute that it was dead, and that with proper ceremonies, it was buried. But who will deny to the venerable men who cherished and loved it when they and it were young, the privilege of periodical processions to its tomb.

There is another party whose memory is vindicated by the living testimony of its principles, and which is entitled to a resurrection. The Old Federalists have even greater claims upon the respect and gratitude of the nation than the old Whigs. A national convention of Federalists would excite a great deal of friendly interest. In one view its assembling might be a matter of importance. Mr Buchanan is a very ancient Federalist, and even a very fervent one. On one occasion he offered to prove his attachment to Federalism by opening his veins in order to purge them of any lurking virus of Democracy. Now, as it is certain that no other convention will accept Mr. B., why should he not have a nomination from a convention of Old Federalists.

The Disappearance of Mrs. Brannan.—It will be recollected, that in July last, great excitement was caused on Staten Island by the mysterious disappearance of Mrs. Brannan, the wife of an officer of the United States army, and the daughter of the late Col Crane. She was at the time residing with her mother at Chelsea, Staten Island, and was last seen to leave the ferry boat at Tompkinsville on the afternoon of the 20th July. A large reward was offered for any information which would lead to her discovery, and a thorough investigation was made by the police, but no clue was obtained to the mystery of her disappearance. Since the examination was dropped by the police, the investigation has been resumed by her husband and brother, under the direction of ex chief of police, G. W. Matsell. The New York papers publish a statement of the affair, which has been made public for the purpose of inviting any one who may have any information in reference to this case to communicate with the press engaged in the investigation. The Times says there are reasons for believing that the unfortunate lady was most foully dealt with, and circumstances point strongly towards a suspected person as having been involved in her mysterious fate.

New Orleans papers state that the bar at the mouth of the Mississippi river is now in a worse condition than it has been for years. A considerable effect of vessels lie at that point, unable to get in or out of the river, and many of them hard aground. It has now become evident that the plan for removing this serious obstruction to navigation, by closing some of the natural outlets, so as to deepen another by the force of the current, and employed for two years past, at an expense of hundreds of thousands of dollars, is a complete failure.—The only practical plan for keeping the passes open to vessels is believed to be by dredging, and this has been practiced in years past with tolerable success. The New Orleans Chamber of Commerce have taken measures to remove the difficulty, if possible, and will apply to Congress for aid.

The Last Romance.—Quite a romance in real life, says the Detroit Advertiser, was brought to a happy termination in that city on the 9th inst. Seventeen years ago a New York lass, lovely and sweet sixteen, became enamored of a medical student, and the pair exchanged vows of love and eternal fidelity. Two years later the unfledged Esculapius left for Europe to complete his education, the aforesaid vows having been previously tenderly renewed.—After a brief and gay sojourn in Paris, the loving student domiciliated himself in one of the most renowned colleges in Madrid, and applied himself to sober study. His letters to the fair damsel he loved were frequent, but no fond remembrance came in reply. His epistles were intercepted and never reached the fair one, while the words of love, intended for his delectation, met with the same misfortune. The poor student, thwarted in his love, threw up his studies, and for two long years coursed through Europe, seeking to whelm his disappointment in the gayeties and pleasures of the different capitals. In the meantime, the young lady, who was equally unhappy, removed to Detroit with her mother. At the end of his two year's pilgrimage, the student returned to America, but the idol of his heart had left the scene of his betrothal, and almost broken hearted he turned his steps to Cuba; but the spirit of unrest pursued him, and Texas and Mexico beheld him still a rover, seeking to drown memory by excitement. A few months since, by one of those singular occurrences which sometimes flash across the pathway of life, he heard that the lady was in Michigan, and quickly wended his way thither. After a few weeks of diligent search, the anxious lover found his Dulcinea at Ypsilanti, and the meeting which ensued—the twain having been separated fifteen years—is described as "affecting in the extreme." The tribulations of the now mature lovers were over, and on the 7th inst they proceeded to Detroit, and were united in the holy bands of wedlock. Who says there is a prosaic age?

New Atlantic Telegraph Route.—A writer to the London Daily News urges the superiority over the line of the present Atlantic telegraph of a line from the North of Scotland by Iceland and Greenland. The line he proposes would be longer than the existing one by 346 miles; but among its advantages, as compared with the line from Valentia are the facts that it would be divisible into comparatively short distances; that it would be laid down in much less depths of water, and with greater ease and cheapness; and that a defect or accident would only affect the sub-division, and could be very readily remedied. The proposed stations are Cape Wrath, Scotland; Portland Huk, Iceland; Cape Farewell, Greenland; and St. John's, Newfoundland.

Money is scarce at St. Cloud Minnesota, but Jane Swisshelm is not the woman to stop printing her paper, because her subscribers can not pay the cash. Jane says she will take either of the following articles in the quantities indicated for a years subscription to her *Democrat*, wheat, 2 bushels; rye, 2 bushels; corn, 3 bushels; buckwheat, 1 bushels; oats, 7 bushels; barley, 5 bushels; butter, 10 pounds; beef, 20 pounds; fresh pork, 20 pounds.

Rev. A. L. Stone, pastor of the Park Street Church, is about to sail for Europe on a six months' furlough in order to recruit his health, which has suffered much from the arduous nature of his duties as pastor of so large a church. Several of the leading members of the congregation have contributed largely to defray his expenses. We understand his salary will be continued during his absence.—*Boston Courier.*

The question of the cession of West Florida to Alabama, is to be submitted to the people of the former at the next election.

Job Work. We are prepared to execute job printing of all kinds, in the latest style and at as cheap rates as any office in the State. Our friends who are in want of Cards, Bill Heads, Shop Bills, Blanks, Circulars or any thing of the kind, will we hope bear us in mind.

Supreme Judicial Court.—Criminal Term.—Appleton J., presiding.

Saturday, Feb. 19.

State vs. Thomas Bulger. Burglariously breaking and entering barn of Wm. Low, and stealing a harness.

The case was given to the jury on Friday afternoon. After being out some time, they came in and desired further instruction as to what constitutes a breaking and entering of a barn or stable. The Court instructed them that any unlawful entering of a building, fastened in the usual manner, was an illegal breaking. The jury retired and brought in a verdict of guilty but recommend Kimball for defendant.

Verdict in State vs. Nath'l Holmes, (before reported) guilty.

The court adjourned at noon, to Monday morning, at 9 o'clock.

Hollman.—Persons having notes falling due on Tuesday of this week, will do well to recollect that they are payable to-day, as the 22d of February is one of the legal holidays, and therefore the banks will not be kept open.

The "Catholic" View of China.—It will be seen by notice in another column that Dr. Le Prohon will lecture to-morrow evening (Tuesday) in the basement of the St John's (Catholic) Church—his subject being the Catholic view of the Chinese Empire.

Complimentary Ball. It will be seen by reference to an advertisement, that a complimentary ball is to be given to Mr Oliver A. Lunt this evening at his hall. Mr Lunt is a popular teacher, and his benefit will undoubtedly be largely attended.

There will be a Donation Party at the Buck Chapel, on the evening of the 23d inst., for the benefit of Rev. R. B. Curtis, Presiding Elder of the Bangor District. The evening will be devoted to singing, speeches, a Poem by Jacob Lovejoy, Esq., of Corinth, and social conversation. The numerous friends of Mr. C in this district will cheerfully respond to this call, in view of the fact that protracted sickness in his family has involved him in heavy additional expenses.

A Legacy. We learn that the Theological Seminary in this city has received a legacy of $400 from the estate of the late Capt. Joseph Park of Searsport. We wonder an institution so useful and creditable to the denomination to which it belongs is not more often remembered in the bequests of Congregationalists.—There are many "solid men" in our State, of that respectable denomination, who could easily put the institution on a good permanent foundation at once; but if it can not be fully endowed at present, it should not be allowed to suffer for the want of means to meet its current needs. We notice its Treasurer is making an earnest appeal to the churches to contribute a sum sufficient to meet its annual expenses, and we wish him abundant success. The Methodists and Free Will Baptists are doing nobly for their educational institutions; we trust their Congregational brethren will not be behind them in so good a cause.

Missing Vessel. About the middle of October, the brig Timothy Crosby, Capt S F. Jerding, of Orrington, was loaded with lumber at this port, by Mr. Waldo T Pierce, and sailed for Jamaica. She has not since been heard from, and fears are entertained that the vessel and crew are lost. The mate was a brother of the master. The brig was owned by Timothy Crosby, Esq., of this city, the captain, and others. It is rumored that a friend of one of the officers consulted a spiritual medium, and was informed that the vessel was lost, and that the officers and crew were taken off by a Spanish vessel, and landed in Spain.

For the Mt. Vernon Fund.—A series of dramatic and other entertainments given in Portland, for the benefit of the Mt. Vernon Purchase Fund has produced $550, net—as we learn from the State of Maine.

An admirable photographic likeness of Father Thurston'—Rev. David Thurston, D D—has been forwarded to us. It was executed by S. W. Sawyer, of Winthrop. On Sabbath before last Father Thurston preached a discourse at Litchfield, where he is now settled, on the occasion of his eightieth birthday.—*Portland Adv.*

The "Division" Cases.—The Portland Advertiser's Augusta correspondent speaks as follows in regard to some of the town division cases before the Legislature, (In the Frankfort case leave to withdraw has been reported.)

A case which excites considerable interest and a good deal of personal feeling, is the proposed division of Frankfort—seeing off the northern half and erecting it into a new town by the name of Winterport. The original project was to annex the new town to the county of Penobscot—leaving Frankfort still in Waldo. This feature of the movement has been dropped however, or at least postponed so far as Legislative action in a year is invoked. Another division involves the total blotting out of the town of Chelsea, in Kennebec. It is the territory on the eastern side of the Kennebec, originally included in Hallowell. Some eight years ago a separate town was formed and Hallowell agreed to pay them $800 a year for ten years. The time has now nearly expired and the inhabitants seem averse to "setting up" on their own account. They therefore petition to be divided, the southern half to be annexed to the town of Pittston and the northern half to the city of Augusta.

Sad Accident.—A Mr. Debeck, belonging to Riddington was found dead at the landing on Union river in Aurora, where he was hauling logs, on Tuesday last. It is supposed that a log rolled over him, killing him instantly.—*American.*

Passenger Alleged.—The many friends of this gentleman, in Brunswick, will learn with regret that he has been very low, and is now seriously ill, suffering from a stroke of apoplexy, which came upon him three or four weeks since. For a long time, the aged gentleman has suffered from epilepsy, but the last attack was the most serious of any which he ever encountered, and for a time no hopes were entertained of his recovery, but he is now more comfortable.—*Brunswick Telegraph.*

The County of Knox has leave to Withdraw.—By a letter from Augusta, received last evening, we learn that the hearing on the petition for the County of Knox, were concluded on Friday evening, by the committee upon Division of Towns, and the petitioners granted leave to withdraw by a vote of 8 to 4, on the *fourth ballot*—there having been a tie vote three times. The report will probably be made on Tuesday, when it is likely Col. Smart will endeavor to procure an order of the House or a bill to be reported.

3rd Accident at Gardiner.—A correspondent of the Boston Journal gives the following account of a recent sad occurrence at Gardiner, to the Boston:

"George Fenno, an only son of Lyman Fenno, of this town, was found dead and somewhat frozen last evening. He took or hogshead had been placed nearly even with the ground where there was a running stream, to preserve his bait. The snow had covered the cistern to the depth of two feet. The water within was about two and a half feet deep. It appears that the boy, who was between four and five years of age, was, during the afternoon, coasting over and around this spot, where he and other children had often played before. From his having the string of the sled in his hand when drawn out, it would seem that he was returning on foot, drawing his sled over the dangerous place, when the snow covering gave way and let him in. This happened in sight and within a short distance of home, and yet no one saw him thus swallowed up, or heard his cries. The anguish of the father as he drew out his lifeless boy can be best conceived by those who have suffered a similar bereavement. The poor little fellow must have stood in the water some three or four hours. It was evidently not a case of drowning, as his head was above the water, and his arms reaching upward to the surface of the snow."

Another Coasting Accident.—We learn from the Ellsworth American that a daughter of I. H. Thomas, Esq., was run down by some boys while sliding a day or two since, and one of her eyes badly injured. She was insensible for about half an hour, but came to after vomiting freely. It is thought she may not lose the sight of the injured eye. Another daughter the same day sprained an ancle in jumping to get clear of a sled.

Store Breaking.—The store of T. Looney, at the corner of Sumner and Mountfort streets, was entered by a gang of thieves, on Thursday night, by breaking in the door. A family resident over the store was alarmed by the noise, and one of the members seized a gun, put a screw into it for want of a bullet, and fired among the rascals. Unfortunately no one was hit and the gang, consisting of three or four, made off.—*Portland Argus.*

A Child's Body Imported in Rags.—It is stated that the body of a child some three or four years old, and considerably decayed, was recently found in a bale of rags at the Paper Mill of Richards & Hoskins in Gardiner. The rags were imported from abroad, and it is therefore impossible to unravel the mystery of its appearance in so unusual a place of sepulture.

Contemptible.—We are informed by Mr Arnold, who is employed by the Land Agent to look after the State's interest in that portion of the country, that while he was stopping at the residence of Mr. Birkford, of Canaan, some graceless scamp entered the stable and sheared off the mane and tail of his horse. Such acts of meanness cannot be too severely censured by all right minded citizens. It is justice to say that Mr. Arnold is an efficient officer, and in the discharge of his duties, as a general thing gives good satisfaction.—*Pioneer.*

Death of Hallam, the Historian.—Henry Hallam, the eminent English historian and critic, died on the 22d of January—six days before the death of Prescott. He had reached the great age of 81 years, having been born in the year 1778. Mr. Hallam, at an early period, was a regular contributor to the Edinburgh Review, contemporaneously with his friend Sir Walter Scott, and was one of the most active friends of Mr. Wilberforce in his movement for abolishing the African Slave Trade.

Suicide.—Mrs. Ruth B. Collins, wife of Mr. Cyrus B Collins, of Manchester, Maine, committed suicide on Saturday last, 12th inst., by hanging herself with a clothes line.

Sudden Death.—Mr. William Healy, of this town, an old gentleman, some seventy years of age or upwards, died suddenly on his bed this morning.—*Farmington Chronicle.*

To the Citizens of Bangor.

CITY OF BANGOR, January, 1859.

MR. LEWIS WATERMAN, proposes to number the Streets of our city upon a plan which will mainly obviate the necessity of renumbering afterwards, on account of the erection of new buildings, as each street is to be carefully measured, and the numbers to be arranged with reference to such probable new erections. He comes with recommendations from other cities and towns where he has heretofore performed similar services, which are satisfactory to us. It is hoped that the citizens of Bangor will avail themselves of the opportunity for effecting the proposed improvement, the expense being small.

Congressional.

WASHINGTON, 19th.

SENATE.—Mr Mason, from the Committee on Foreign Affairs, reported on the memorial of Edward K Cooper and associates, asking an exclusive grant of the Island or Bay of Navassa in the Carribean Sea, and recommend that it be indefinitely postponed

Mr Seward presented the memorial of E. K. Collins, asking for the balance due them for Atlantic mail service. Referred to the Post Office Committee.

The Senate, after some discussion, agreed to rescind the 11 o'clock hour of meeting order, and instead thereof, to meet at noon, work hard, and sit as long as they can, without holding evening sessions.

Messrs Davis, Hall and others, on both sides of the chamber, declared that they never saw any good come out of after dinner meetings.

The special order coming up Mr Mason moved to postpone and take up the bill placing the naval and military forces at the President's discretion, as asked in his message.

Mr Hunter insisted on the appropriation bill instead, and obtained the floor; but gave way for the presentation of reports.

Mr Clay of Ala., read a lengthened report from the committee on pensions, relative to ... the old soldiers pension bill, and moved that the Senate concur in it.

Mr Seward of N. Y., objected to voting with ut consideration, and moved that 10,000 copies be printed. Agreed to.

Several other committee reports were offered when Mr Wade moved to postpone the consideration of the Consular and Diplomatic appropriation bill, and take up the Homestead bill.

Mr Hunter claimed the floor on the former bill.

The chair overruled him.

Mr Hunter asked senators to consider how it was possible for the appropriation bills to be passed, when they continually put them aside, and insure the likelihood of an extra session to discuss private measures. Finally the Diplomatic and Consular appropriation bill was taken up by a vote of 31 against 25.

The question recurred on Mr. Pugh's amendment, to consolidate the smaller missions.

Mr. Pugh, after discussion, withdrew his amendment previously offered, leaving only the following words as a proviso to the first section: "That no other minister, envoy or ... shall be entitled to any compensation during the fiscal year." The object of the amendment is to prevent the President from appointing more ministers without the consent of Congress. Agreed to, 31 to 15.

Mr Simmons of Rhode Island moved an amendment, that no minister shall be entitled to a higher rate of exchange than 10 per cent on the nominal amount of his salary. In China it had reached the enormous difference of 42 per cent.

Messrs Toombs and Mallory showed that it was necessary to allow the current rates of exchange, else it is equivalent to a reduction of their salaries.

Mr Toombs said, that strict economist as he is, he considered there is nothing to retrench in the salaries of foreign ministers. They are already insufficient in many places to sustain ... as American citizens should live, and he would rather vote to increase than diminish them.

Mr Simmons' amendment, however, was carried against 18

Some time after, when the bill was reported to the Senate, Mr. Toombs moved to reconsider the vote. This re-awakened the whole question of exchange, and Messrs Toombs, Sumner, Collamer, Benjamin and others discussed it

The motion to reconsider was carried by 26 against 9

Mr Fessenden moved to add a new section ... bill, to limit the Consular certificate ... on the Canada line to 20 cents, and discharge with them where goods are under the value of $200.

This was debated by Messrs Fessenden, King, Hamlin and Hunter. From the debate it appeared that much dissatisfaction exists from the American Consul General having appointed a great number of Vice Consuls along the ... Canada line, who, being paid by fees, create a ... tax on the commerce.

Mr Fessenden's motion was then agreed to.

Mr Hunter, from the majority of the finance committee, offered an amendment that no more ... be expended for the fiscal year commencing July 1, 1859, that the amount appropriated in this bill, together with such amounts of the permanent and indefinite appropriations as ... be applicable thereto. He proposed to add a similar clause to all the appropriation bills, the effect of which, he said, would be to limit what is to be used out of the permanent appropriations, and reduce the expenditures from the estimate of seventy-three to sixty one millions

Mr Simmons made a protracted argument with the view of making it appear that Mr Hunter's expectations of economizing were fallacious

Mr Bigler sided with Mr Simmons saying that Mr Hunter's proposal economizes nothing but merely limits the expenditures as to time, not as to amount.

Mr Collamer took generally the same views

Mr King was anxious to guard against this amendment being construed as repealing outstanding appropriations already made and he ... to prevent such a construction ... Mr Hunter's amendment, which being thus ... passed.

Mr Mason moved as an amendment that the ... at Liverpool be allowed $4000 for the ... out of the fees, provided his ... and theirs do not exceed the total ... of the fees

Mr ... objected to this saying that as it ... from the Committee it was out of order

Mr ... in the chair so decided.

Mr Davis offered an amendment providing ... appropriation of $150,000 for ... the Washington boundary line so that the American commission could be able to ... with that of the British agreed to.

Mr ... drew attention to the fact that ... of the appropriations for consuls ... 600 over that of last year and asked ...

Mr Hunter explained that last year were ... paid the balance of appropriations on ... but that there were none this year.

The bill was then passed.

Mr Simmons gave notice that he would move ... consideration when the Senate at six P. M. adjourned

HOUSE.—Mr Hughes of Ind. called up the ... reported from the Select Committee to examine the accounts and conduct of the late ... Mr Hockney. It proposes the re... of abuses in the folding room.

The House tabled it, but adopted a resolution from that Committee declaring that all extra copies of books and documents divided ... among members are intended for gratuitous distributions to libraries and among the people, and that any other disposition of the same meets the unqualified disapprobation of the House.

The consideration of the army bill was resumed in Committee of the Whole on the state of the Union.

An amendment by Mr Curtis providing for disabled army officers and one by Mr Bryan appropriating $1,600,000 to pay the Texan volunteers were both rejected. Various amendments were acted upon. Those agreed to were subsequently reported to the House, but no definite action was taken thereon. Adjourned.

WASHINGTON, Feb. 19th.

A messenger arrived here this morning from Vera Cruz, with despatches from Mr. Churchill, the special agent of our government in Mexico. The President and Secretary of State had the matter under consideration until a late hour this evening. From what has transpired, it is understood the despatches speak of the alarming danger which threatens the lives and property of American citizens in Mexico, from the banditti now in power there, and imploring government for prompt and immediate assistance.

The reduction of the Army appropriation bill, which passed the House to-day, amounts to $2,000,000 less than the estimates of the Secretary of war.

Mr Benjamin called the attention of the Secretary of war to day to the fact that the bar at New Orleans had filled up to such an extent as to prevent the larger class of vessels from getting over it. The Secretary at once telegraphed to employ men to clear it out, to the extent of the unexpended appropriation of $71,000.

The select committee on the navy department and navy yards are not able to agree on a report. Messrs Sherman of O., and Ritchie will submit a statement, and Messrs Bocock and Groesbeck will unite on another, while Mr Reedy will have something to say in a third paper. The committee are divided politically.

It is said that a portion of the troops in Utah will be ordered to the southern boundary of New Mexico

By the treaty recently ratified by the Senate, the United States acquire about 10,000,000 acres of land from the Yancton band of Dacotah Indians, who are to be placed on a tribal reservation, and the President is authorized to give them lands in severalty. Instead of being entrusted with large amounts of money, as has heretofore been the case with other Indians, they are to be supplied with stock, agricultural implements, farm houses, and whatever else may be necessary to advance them in civilization.

This treaty was negotiated with the Yancton band by Mr Mix at that time Commissioner of Indian affairs, as was also the treaty with the Senecas at Tonawanda. Recently ratified they are to remain where they now are. The lands in the West to which they have an inchoate claim under a former treaty are to be sold and the proceeds applied by the Commissioner of Indian affairs to the purchase of homes in their present locality It will be recollected that the lands with which they parted in Western New York were sold to the whites,

Legislature of Maine.

FRIDAY, Feb, 18

In the Senate.

Bill to reduce the capital stock of the Ticonic Bank, Waterville, was read a second time.

Mr Carlton questioned the policy of allowing the Banks to reduce their capital stock with the recurrence of every pressure, only to increase the capital with the revival of business. Especially as now, when there is already an over issue; thus reducing the liability of stockholders to the public.

Mr Marshall said the circulation of the banks of this State at this moment did not exceed fifty per cent of the maximum amount allowed by law. He insisted that it was good policy to reduce the capital of the banks to the business wants of the State.

Mr Swasey said that where many of the principal stockholders fail, it becomes necessary for the security of the public that a corresponding reduction of capital should be allowed.

Mr Fletcher said the Ticonic Bank was an old, well established institution. In consequence of the decrease of business, the bank desired a reduction of its capital. It was the first time that a proposition for reduction had been resisted. Several years ago the community in the vicinity of Waterville, required a larger amount of bank facilities. This bank was willing to furnish its proportion by taking an increase of capital of $25,000, and did take it. But another bank was incorporated, of $75,000 capital, which was not required.—This was too much for the place. And now this bank asks the $25,000 taken off.

Mr Carlton said if the reduction was to be permanent he would not object; but if an application for an increase was to be made with a revival of business, he should object.

Mr Carlton withdrew the motion to lay on the table.

The bill then passed to be engrossed.

Mr Williamson, from the Committee on Education, to which was referred the bill to repeal the act of 1858 providing for the payment of the semi-annual interest on $16 000 of scrip to the Maine State Seminary, reported the same back in a new draft.

Mr Fletcher moved that the resolve be recommitted, with instructions to report a statement of facts.

The motion prevailed.

Passed to be enacted—Bill to incorporate the Belfast Mutual Fire Insurance Company.

Passed to be engrossed—Bill to annex the town of Eden ... to the towns of Mt Desert and Tremont.

Mr McCluskey presented the petition of Rev Henry Dickens and 24 others, for an appropriation for schools in Madawaska; also remonstrance of the inhabitants of Plymouth Great against the inhabitants of said Grant; also, petition of the Selectmen of Littleton, asking the Legislature to locate the public land belonging to said town.

In the House.

Papers presented and referred—Memorial of Joseph A. Lee and others in relation to certain charges heretofore filed by them in regard to the Indian Agent, remonstrance of Benjamin Gross and 67 others of Bucksport against the petition of Rufus Dwinel; of E P. Fessenden and 207 others of Bucksport against same; of N. Cole and 27 others of Bucksport against same, petition of Samuel Wheeler and others for a Bank at Phillips.

A message was received from the Governor transmitting the report of the Commissioner appointed to examine the systems of labor and disbursement in the State Prison

It was laid on the table and 1000 copies ordered to be printed,

The resolves to provide for Biennial Sessions was taken up.

Mr Prentiss addressed the House at length in favor of the resolves.

Mr McCrillis opposed them. He was decidedly in favor of the salary bill. Now when any one makes a speech, of an hour long, he does it at the expense of the people of the State, but with a salary of $150 he would do it at his own expense, and that of the members of the Legislature. He moved to postpone indefinitely.

After some debate the House adjourned without taking any question,

It is a remarkable feature in the trade in breadstuffs, that during the month ending the 28th of January, there was not a barrel of flour or a bushel of grain shipped from the United States to Liverpool, and only ten barrels of flour to London.

THE MOUNT VERNON PURCHASE.—The Regent of the Mount Vernon Association announces that $181,000 have been paid towards the purchase of Mount Vernon, and the Association has $16,000 invested Two payments have been made this month—$5,000 on the 6th, and $10,000 on the 11th—thus leaving but $16,666 of the second installment of $41,666 due on the 22d of February, 1860.

PERRY DAVIS' Vegetable Pain Killer!

REV. T. ALLEN writing from Tavoy, Burmah, says:—Within the past four years I have used and disposed of above five hundred bottles, but am now out. Please send me a fresh supply (through the Mission Rooms) as soon as you can, say two hundred bottles. I dare not be without it myself, and there are endless calls for it, both by Karens and Burmans. I always take it with me into the jungles, and have frequent occasions to use it both on myself and others.—One night, while sleeping in an open Zayat, I was awoke by a most excruciating pain in my foot. On examination I found I had been bitten by a Centipede. I immediately applied the Pain Killer, and found instant relief. In less than an hour I was again asleep.

Rev H. L. Van Meter, of Bassein, India, writes:—Here let me assure you that we prize your Pain Killer very highly. For the first two or three years of our residence in India we were ignorant of its valuable properties, and did not use it, but now would hardly feel safe without it for a single day. Only a few nights since Mrs Van Meter was stung by a scorpion, and intense pain was instantaneous throughout the arm, and soon a numbness of the fingers followed. By the continued application of the Pain Killer for an hour or more and at intervals during the night, the alarming symptoms were subdued, and in the morning only a slight soreness was felt in the finger. I gave it in a severe case of Fever and Ague according to directions, and it acted like a charm, breaking it up at once. The Karens have great confidence in it.

Mr W L Carpenter writes from Calcutta,—"Perry Davis' Vegetable Pain Killer is a very valuable medicine, and most people here that have used it entertain a high opinion of its worth."

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line, as below

☞By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense* This is the *only* line giving entire Through Tickets, guaranteeing no detention on the Isthmus

Transit made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals

Arrangements have now been completed so that the regular U S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, with the greatest comfort and safety to health

☞*Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the *only authorized Agent* for the U S and Pacific Mail Steamship Companies, in this city C. L. BARTLETT, Agent,

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? Is it a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

THE HATCH HOUSE, Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

HONEY.

THE LUXURY AND PROFIT OF
HONEY MAKING.

☞Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Dana's Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to any thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey, are the best adapted in their use, for the market, holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives

DR. HOBENSACK'S Worm Syrup and Liver Pills,

PROBABLY one reason why Worm Medicines so frequently fail of any *good effect*, is the fact that they contain no qualities except as *Worm Killers* consequently in many instances where we mistake the symptoms of disease, and doctor for worms, when the cause of disease is not worms, but a *derangement of the system and consequent debility and ill health, no good result f lows*, whereas in the use of *Dr Hobensack's* *measures, it being an active remedial agent*, as well as *worm killer*, the patient immediately gets well, though no worms are brought away.

Thus it will be readily seen that it possesses *many advantages* over other worm medicines, as it is not only sure to kill and bring away the worms, but builds up and restores the patient to general health, besides.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLENN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—$5 cts. per lb.
Bank Bills—$16 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts. per lb"
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per l b
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents, erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept open 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County, N J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS, President of the Company, No. 70 Wall street, New York.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S Patent Office, Washington under the Act of 1837.)

78 State St., opposite Kilby St.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of Inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that ours is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents

All necessary of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors

TESTIMONIALS

"I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,"
Commissioner of Patents

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office EDMUND BURKE,
Late Commissioner of Patents

"Boston, February 8 1858.

Mr R H Eddy has made for me THIRTEEN applications, all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges JOHN TAGGERT"

From Sept. 17 h. 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on *cases* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents

Important to Horse Owners.

PORTSMOUTH, N H, May 2 1858

T. C Butler, Esq

Dear Sir.—During the last year I have sold some 300 packages of your Miller's Condition Powders, for Horses and Colts, and in makin ance that I have heard of, have they failed of giving entire satisfaction

I regard them as standing at the head of all Horse medicines now in the market and am sustained in this opinion by all the stab keepers and owners of horses who have used them in this vicinity.

I cheerfully give my testimony in favor of your Powders, and advise all interested to give them a trial Very respectfully yours,

(Signed) WILLIAM R PIERSON

The Boston Journal

FOR 1859

"The Favorite Paper of New England."

Published Daily, Semi-Weekly and Weekly.

Payment invariable in advance.

In announcing the terms for THE JOURNAL for 1859, the proprietors deem it unnecessary to describe its peculiar character as a family newspaper, or to make any promises for the future. He deems it sufficient to say that

THE BOSTON JOURNAL

has been in the front rank of the newspaper literature of the day; that it has for years occupied the almost undisputed position of the leading head of the New England Press, and that the qualities which have made it so will be sedulously retained by pursuing a straightforward, independent course in all respects, and by spending whatever money is necessary to give the readers the fullest reports of all matters of interest, the earliest manner. It has always relied for its success upon its merits, and not upon the partisan or sectarian clamors of its supporters. It has received a liberal confidence and patronage from the public, and the result has been that it has now become *three times as large as that of any other paper published in New England*—and is steadily increasing. The proprietors intend to maintain in all the departments of the paper the high character which it has acquired by the manifold ability and enterprise displayed in procuring all important news, and to make THE JOURNAL the favorite home paper of the fireside, the counting room, and the family circle. It will be the constant endeavor of the editors of THE JOURNAL

BOSTON DAILY JOURNAL

Contains the latest news by mail and telegraph up to the hour of publication. It is published on the day of the arrival of the European steamers, at the rate of FIFTEEN CENTS an hour, which enables the reader to obtain the news in the very latest moment after its occurrence. The edition is issued for the following morning's mails, and is published at the low rate

Six Dollars a year; Single Copies Two Cents.

SEMI-WEEKLY JOURNAL

Tuesday and Friday Mornings.

Contains the latest news by mail and telegraph up to the hour of publication. It is printed on the day of the arrival of the European steamers, at the rate of FIFTEEN CENTS an hour, which enables the reader to obtain the news in the very latest moment after its occurrence. The edition is issued for the following morning's mails, and is published at the low rate

THE JOURNAL FOR ALL

Is printed on the first day of each month for mailing by the publishers. It is made up with the choicest portions of the Daily and Weekly Journal, and contains *twenty thousand* more words than any other paper in the United States. It is sent there will be no other paper in the than any other paper in the States. It is the cheapest paper in the world. A specimen copy will be sent free to any one who may desire it.

TO ADVERTISERS

An advertising medium equal in New England and unjust system of prices has been entirely abolished and a system of prices adapted to the pays for the circulation of each paper. Advertisements will be inserted in the Journal Reading Room of newspaper files, and will be inserted exactly as they will be inserted in the paper, as though handed in and made in advance No favors have been employed to secure and no discount from the prices in other columns. Contracts will be advertised in the columns of the fact that its circulation is the largest

Three Times as Large

As any other paper of the kind published in Boston and it appears in both the MORNING and EVENING papers, renders it a favorable medium, with the public and a general and enterprising advertising

☞The Boston Journal is the Newspaper and Periodical Depot for all the principal cities and towns in New England, and in the adjoining States. Orders from Portland, Me., Bangor Manchester, N.
